

GENESE CAFÉ TABLE

GENESE CAFÉ TABLE:

"The Genese café table was designed by the Danish design-duo Voss & Hedlund together with Holmrís as part of the Genese collection. The whole collection is produced by HOLMRIS B8 in Denmark to ensure high quality and service.

This café table is a minimalistic and stylish table for cafeterias, meeting areas, lounges, and receptions, so the table is very versatile and useful in many different ways.

There are two different Genese café tables – one with a three-legged frame and one with a four-legged frame. The tabletop is slightly bigger with the four-legged frame. It is also possible to choose between a square or round tabletop. Thus, there are many options to personalize and fit the table perfectly into any given space."

- Tabletop in linoleum, NanoSoft laminate, veneer and laminate.
- Black or white frame. Foot with polished top
- Height 40, 72 or 108 cm
- Round or square table tops. Dimensions 100 or 120 cm

Design: Voss & Hedlund
