

# TIME OUT EXCELLENT

## Description

Time Out Excellent is an exclusive version of the classic Time Out collection. The high table has a beveled edge and the tabletop is available in high-quality solid oak. These details lift the design to a higher level, making the table suitable for the more design conscious user. It is also appropriate for anyone who appreciates fine craftsmanship and high quality materials.

Time Out Excellent is useful for office landscapes where you need an informal meeting area or a place to have your lunch breaks or to socialize throughout the day to stay active and move away from your desk. The Time Out Excellent high table is very flexible and can accommodate any needs you may have for a high table.
