

S60 WORK DESK

S60 WORK DESK:

S60 is a series of work desks developed from a slimline design concept, which leaves a stylish and minimalistic expression. The tabletop is made from Valchromat, which is 30% stronger than MDF and holds the same sustainable profile, being FSC™ certified and recyclable.

Both the tabletop material (Valchromat) and surface can be customized in multiple different combinations of colors, creating a unique expression. The cabling is integrated in the table, leaving nothing to hang underneath the table, and all features are intuitively placed in Design Tags in the tabletop.

- Desk top surfaces in either regular laminate, NanoSoft laminate, linoleum, matt Valchromat or oak veneer.
- Fixed 73 cm or electrical height adjustment, 70 - 120 cm.
- Available in 11 assorted sizes in lengths of 100, 120, 140, 160 & 180 cm.
