Furniture Care Instructions

Veneer Product:

The furniture is lacquered and do not require specific care.

Daily cleaning should be done using a soft dry cloth. Once in a while clean with a cloth rinsed with warm water and wrung out tightly.

Linoleum:

Daily cleaning of linoleum should be done using a mild cleaning solution. We recommend using cleaning product with a PH value between 5 and 9 in diluted form. We also recommend using a linoleum care product twice a year.

If very soiled use mild cleaning product to recommended dilution. Follow with clean water and linoleum specific care product.

Laminate:

No specific care required.

Laminate is a plastic product and can be cleaned using most non-abrasive cleaning products.

General:

Never place your furniture in a wet room, or other places with large changes in temperature and moisture. This will compromise the look and life span of the furniture.
