Product

Enhance your outdoor setting by incorporating cushions and rugs to create a warm, inviting and personal atmosphere. Outdoor rugs on the terrace not only unite your leisure area but also establish an environment of well-being. All materials used are made of recyclable Olyna fibers, fabricated especially for outdoor use, and of premium quality. For the rugs, the fibers are twisted and braided, while they are spun into a tactile fabric for the cushions. The colours are curated to match across the entire mindo collection.

Designed by

Rikke Frost, an industrial designer has run her design studio since 2004. When designing, Rikke focuses on the relevance and longevity of a product and its impact on our environment, both now and in the future. Rikke's designs for mindo are minimal without ever losing comfort, functionality, or aesthetic magic. Her furniture has a playful quality to it, which she emphasizes with thoughtful details for the user to discover and engage with.

"A passion for innovative materials and the fascinating world of colours pushed us to explore the impact these two combined can have on different environments." - Designed by Rikke Frost & Mindo Design Team

Dimensions

Rug large
Dia./Ø 200,0 cm / 78.7"

Rug small
Dia./Ø 140,0 cm / 55.1"

Rug rectangular
Length: 300,0 cm / 118.1"
Width: 200,0 cm / 78.7"

Rug long
Length: 300,0 cm / 118.1"
Width: 81,0 cm / 31.9"

Cushion
Length: 45,0 cm / 17.7"
Height: 45,0 cm / 17.7"

Colours

Rugs:

White beige

Terracotta

Brown beige

Cushions:

White beige

Terracotta

Materials

Fabric and Rope made from Olyna yarn

Care & Maintenance

OLYNA YARN is manufactured in Italy and is 100% solution-dyed. Olyna yarns offer great resistance for many years to sunlight, dirt, chlorine, and sunscreen lotion due to a patented spinning process that adds special UV protection and antioxidants to the fabric. The material is fully recyclable and designed for outdoor as well as indoor use. This high-quality material offers an unusually soft, "wool-like" surface, which is not only very comfortable but also has strong anti-allergenic properties. We recommend regular vacuuming or lightly brushing off dirt/dust. Most dirt and stains can be cleaned off if treated promptly. The fabric can be washed with mild lukewarm water, a little amount of detergent and a soft bristle brush. Do not dry in electric or gas dryers, and avoid ironing the fabric. Excessive heat will shrink the fabric, so we recommend air drying.

Rope is made by a special twisting technique of the Olyna yarns and sewn together to produce the rugs. The cushions are equally made of 100% Olyna yarns that are texturized to create the tactile effects of the fabric.

Storage

The mindodo 110 rugs can be left outside during the entire summer season, but we do recommend taking the mindodo 110 cushions inside during bad weather spells. During the off-season, we recommend storing the rugs in a dry and ventilated place, like a covered patio or similar. This will give them maximum protection and make spring cleaning easier. Alternatively, store it under a furniture cover. A cover should be placed in such a manner that it is kept slightly away from the rug to minimise condensation and allow for free air circulation. Condensation forming under the cover during storage, as well as furniture or cushions that were damp before storage, can cause mould and mildew. Therefore it is vital that the furniture as well as any cushions or rugs are completely dry before storage. Checking the stored furniture regularly and letting moisture escape by lifting the cover on dry days is helpful. We recommend storing any loose cushions upright or in a slanted position for maximum air circulation. Placing them with their backside up will protect the more visible parts if staining should occur.

Cover

There are no individual covers available for the mindodo 110 collection but the items can easily be placed together with other covered furniture.
