Product

The extension table is a unique innovation, that is unrivaled in the outdoor furniture market. Made from powder-coated aluminium, the table is extremely weather and scratch-resistant and only requires a minimum of maintenance. The patented extension system of the entire mindo 111 collection provides the tables and benches with the possibility to extend easily and quickly without the use of extra plates. Making room for many guests has never been easier.

Designed by

Jesper is a versatile talent, both a creative industrial designer and a detail-oriented inventor. His dedication to any product he works with stems from his holistic approach to innovation and problem-solving. His own aversion to handling and storing large extension plates when hosting many guests led him to the ingenious design of a table with an extendable top. This unique solution resulted in a patent in cooperation with mindo and the backbone of a large range of extension tables and benches, namely the mindo 111 series.

"My goal was a revolutionary and functional extension table – a truly jaw-dropping experience that caters to everyone's needs. This patented solution has been years in the making, navigating through numerous trial & error situations, requiring immense patience. But with mindo's invaluable assistance and support, we've triumphed at last!"

Dimensions

Balcony table - extension
Length: 162,0 cm / 63.8"
Ext. length: 200,5 cm / 78.9"
Width: 60,0 cm / 23.6"
Height: 76,0 cm / 29.9"

Dining table - extension
Length: 162,0 cm / 63.8"
Ext. length: 200,5 cm / 78.9"
Width: 90,0 cm / 35.4"
Height: 76,0 cm / 29.9"

Dining table - extension
Length: 263,0 cm / 103.5"
Ext. length: 327,5 cm / 128.9"
Width: 100,0 cm / 39.4"
Height: 76,0 cm / 29.9"

Bench - extension small
Length: 139,0 cm / 54.7"
Ext. length: 173,0cm / 68.1"
Width: 42,0 cm / 16.5"
Height: 46,0 cm / 18.1"

Bench - extension large
Length: 240,0 cm / 94.5"
Ext. length: 300,0cm / 118.1"
Width: 45,0 cm / 16.5"
Height: 46,0 cm / 18.1"

Colours

ALU FRAME:
Light Grey 010

ALU FRAME:
Dark Grey 070

ALU FRAME:
Dark Green 014

Materials

Powder-coated aluminium

Care & Maintenance

ALUMINIUM is a lightweight, yet strong and durable material and ideal for outdoor furniture due to its resistance to corrosion. At mindo, we use state-of-the-art powder-coating techniques in our production process. Powder-coating technology is an eco-friendly and secure process to best protect and prolong outdoor furniture from weather influences as well as from minor scratches. If the coating is damaged due to dents or scratching, moisture can invade and eventually damage the aluminium. To ensure the highest quality and resistance to external factors, we carefully apply the powder coating to every frame and aluminium slat individually. This may cause a subtle variation in colour tone, that might be visible on our mindo 111 table slats under specific lighting conditions. Please note that this tonal difference has no effect on the quality of the slats or the table and will not be considered grounds for a warranty claim.

Regularly remove dirt with a sponge or soft brush, lukewarm water, and a mild dishwashing detergent. Never use solvents. Thoroughly rinse with clean, fresh water after cleaning to remove all soap and dirt residue. To remove dirt from the extension tracks, flush the tracks thoroughly with water from a garden hose. In severe cases, remove one or both table legs for better access. We recommend leaving the table in a non-extended position when not in use for longer periods of time. To avoid scratching, always place objects with a rough surface on a coaster and do not pull or slide heavy objects on the table top.

Storage

The mindo 111 collection can be left outside during the entire summer season. During the off-season, we recommend storing your furniture in a dry and ventilated place, like a covered patio or similar. This will give your furniture maximum protection and make spring cleaning easier. Alternatively, store the furniture under a furniture cover. A cover should be placed in such a manner that it is kept slightly away from the furniture to minimise condensation and allow for free air circulation. Condensation forming under the cover during storage, as well as furniture or cushions that were damp before storage, can cause mould and mildew. Therefore it is vital that the furniture as well as any cushions are completely dry before storage. Checking the stored furniture regularly and letting moisture escape by lifting the cover on dry days is helpful. We recommend storing any loose cushions upright or in a slanted position for maximum air circulation. Placing them with their backside up will protect the more visible parts if staining should occur.

Cover

mindo 111 extension table, small, incl. chairs: Cover no. 3 (non-extended), Cover no. 4 (extended)
mindo 111 extension table, large, incl. chairs: Cover no. 6 (extended and non-extended)
mindo 111 extension table, balcony: Cover no. 3 (non-extended), Cover no. 4 (extended)
mindo 111 bench, small: Place underneath a covered table
mindo 111 bench, large: Place underneath a covered table
