FUNCTIONS & FEATURES

UV-PROTECTION

Textiles with the symbol UV-protection are characterized by sun protection comparable to the protection of a sun-screen. The information is given in UPF (UV-protection factor). This indication implies the factor by which the length of time spent in the sun can be extended without getting sunburnt. It is calculated in the same way as the sun protection factor of a sun-screen.

BREATHABILITY / PERMEABILITY TO VAPOUR

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

WATER COLUMN

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

TAPED SEAMS

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % waterproof.

BIONIC-FINISH® ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONIC-FINISH®ECO protects man and nature.

DUPONT™ SORONA®

Sorona® renewably sourced fibre delivers superior performance benefits to today's fashions. Fabrics that use Sorona® are very soft, very strong and dry quickly. Sorona® helps fabrics stretch comfortably and retain their shape. Moreover, it contains with plant-based ingredients.

DuPont™ Sorona®. Designed for Performance. Derived from Nature.

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

PRIMALOFT® SPORT

PrimaLoft® SPORT is a highly functional padding with excellent insulation qualities, which is extremely soft, light-weight, waterproof and breathable. Specially developed fibres form small air chambers which store body warmth very well, thus keeping the cold out. Thanks to a very thin surface structure the textile is waterproof, however it evacuates moisture from the skin to the fabric surface where it evaporates. Due to this, the skin will remain pleasantly warm.

COOLMAX® FABRIC® ACTIVE

COOLMAX® fabric® active provides enhanced comfort for active people. High wicking performance helps move moisture to outer layers keeping the skin dry and cool.

The fibre is breathable and lasts longer than traditional materials.

CAPS FOR PRINTING

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

All the bags shown in the catalogue Jackets & Vests are products of HALFAR System GmbH. More information is available at www.halfar.com.

BRAND STATEMENT

Both in textile promotion and in corporate fashion wear **JAMES & NICHOLSON** and **myrtle beach** are meanwhile among the best-known and most popular brands. The product diversity of the two product lines is unparalleled and is expanded every year by around 100 fashionable novelties. In the fields of sports, leisure, business and work there is hardly any top or headgear which is not included in the diverse product line.

JAMES & NICHOLSON stands for functional sportswear for almost every sport, for trendy leisurewear and jackets as well as for classic business wear and sturdy workwear. For all everyday situations **JAMES & NICHOLSON** offers suitable clothing for ladies and men. Most basics are available in almost 40 colours as well as in outsizes up to 6XL.

Fashionable and functional headwear as well as trendy accessories which can be combined very well with the **JAMES & NICHOLSON** collection, that is what **myrtle beach** stands for. The wide range of cap shapes and cap designs is unique and at the same time innovative, for a few of the products of **myrtle beach** are prize-winning. In recent years the Promotional Gift Award has been won several times by clever cap inventions which have definitely enriched the promotional market. The headwear brand is extended by trendy scarfs, gloves and the large spa collection, which offers terry products for sports and the catering trade in more than 20 colours.

The storage capacity of the brands is 20 million pieces, 98% of which are always available. Extremely short delivery times and a smooth handling of direct shipment are a great advantage **JAMES & NICHOLSON** and **myrtle beach** offer their customers. Service takes top priority – in day-to-day business the focus is always on the customer. That is why the quality of the product lines is the most important thing of the company philosophy – from inception to completion and beyond. **JAMES & NICHOLSON** and **myrtle beach** are sustainable and manufactured with social and ecological responsibility. All the textiles are REACH-compliant and manufactured according to Oeko-Tex® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct. The textiles are submitted to strict controls.

In 2018 too, the new collection radiates a zest for life: always up to the minute in business and therefore trend-, quality- and price-conscious! With **JAMES & NICHOLSON** and **myrtle beach** several price levels from low budget to premium will guarantee excellent value for money for the customer.

All the caps and beanies shown in the catalogue are products of our myrtle beach collection.

THE NEW OUTDOOR: MADE WITH RESPONSIBILITY

SOCIAL COMPLIANCE

As members of the 'BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. That is how we guarantee the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

OEKO-TEX STANDARD 100

This standard guarantees that textile and non-textile product components pose no threat to health.

ADHERENCE TO THE REACH-REGULATIONS

We assure you that when manufacturing our **myrtle beach** products and **JAMES & NICHOLSON** textiles we meet the obligations of the REACH-regulations.

PROTECTION OF THE ENVIRONMENT

All the products of **myrtle beach** and **JAMES & NICHOLSON** are produced in an environmentally friendly and sustainable way.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.
